However, this also reduces damage. Compatible with all firearms with bullet holes. Temporary silencer reduces noise by 20%. When used, the firearm is only 80% effective. 120% ball drop is also a result. Once the quality reaches 0%, it is no longer fully effective. Plans: Metal Box (X2) + Chalumeau Glue / Tape * Production 1 = Anecdotes VALUES: The name "Silent" comes from a device used to reduce the noise of the vehicle's exhaust and tools. In English-speaking countries outside the United States, it is called Silent. In real life, the cans have been proven to reduce the noise produced by firearms and to deflect explosives. The silencer is a keg accessory made from 2 coke cans with a fire tool and 2 metal cans at a campfire. When attached to a firearm, it reduces the sound of gunshots, but not as effectively as a silencer. Although the muffler is always larger than the muffler, it reduces noise more effectively, the muffler is easier to obtain as cans and canned coke are more common. Although there is a lower version of the damper. Still useful for players who want to shoot at zombies, but want to pay less attention and attract the crowd while shooting. In real life, it has been shown that drink cans reduce the noise of both firearms and explosives of lure. If the player must choose between the silencer and the flame suppressor, he should choose a silencer, because it can also mute the sound of burn, is very long and can reveal your location in Pvp.
