Interior Angles of Polygons

An Interior Angle is an angle inside a shape.

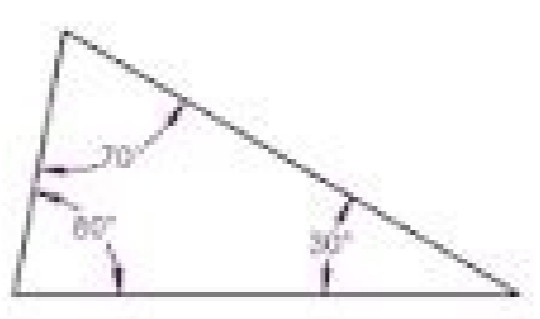

Triangles

The Interior Angles of a Triangle add up to 180°

$$90^\circ + 60^\circ + 30^\circ = 180^\circ$$

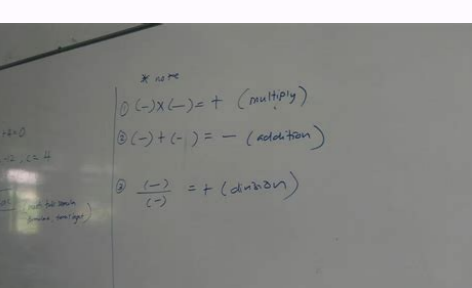

It works for this triangle!

$$80^\circ + 70^\circ + 30^\circ = 180^\circ$$

Let's tilt a line by 10° ...

It still works, because one angle went up by 10°, but the other went down by 10°

Accentuate the negative meaning.

Leo Astrology Dates: July 23 to August 22 Zodiac Symbol: Lion Element: Fire Ruling Planet: Sun Ruling House: 5th Quality: Fixed Polarity: Positive Power Color: Yellow, Orange Birthstones: Peridot, Onyx, Diamond, Carnelian, Ruby Flowers: Sunflower, Marigold Key Traits: Enthusiastic, Self-assured, Generous Desires: Success, Recognition, Esteem Compatible Signs: Aries, Gemini, Libra and Sagittarius Mantra: "I will..." Leo is considered the warmest and most generous sign of the Zodiac. Like the Lion or Lioness, there is a quality of nobility and a natural air of leadership that surrounds all Leos. Leo's are not likely to do anything that they do not intend to do and tend to be less impulsive than the other fire signs. Leos often find themselves "accidentally" or "unexpectedly" at center stage, or others "volunteer" them into it. This is what makes Leos such natural teachers, entertainers, and managers. Leos are also the staunchest defenders of the underdog, as they feel a natural responsibility to those less fortunate. This is a clue into why Leo has often been called the most loyal of the signs, but actually, the loyalty that you demand from others is far greater than the loyalty they give. A Leo's worst traits are false pride and arrogance as they often put a priority on things that make them feel good. When pressured, Leos have a hard time making compromises or being even-handed. The good news is that most are won over by Leo's warm and self-confident nature. Although Leos can be playfully competitive, it's hard to force one into a conflict, or into in-between, "gray" areas. More about the Sun in Leo: 8 Ways to Live Fiercely When the Sun Enters Leo The Leo symbol is that of a Lion. It speaks to the bravery of those of the Leo Zodiac. The Lion is fearless, impossible to challenge, and their only weaknesses are being fearful and aggressive towards those they confront. This gives them a moment before tackling the world with dignity and respect. The Lion also needs a safe place to find comfort and are warm-hearted at the core. Just like a Lion, Leo's are fiercely protective of their loved ones, and will often adopt people around them as their cubs. They are brave and calm in their approach towards threats. Which Tarot Matches Leo? The Lion's Tarot: Which Tarot Cards Correspond with Leo? The fire signs are always masculine, or positive. If you were born an Aries, a Leo, or a Sagittarius, then you were born a Fire sign. Of course, not all fire signs are going to behave the same. Even two Leos can be very different from each other, because of the way that the rest of their planets fall. With that said, Leo is gregarious and usually enjoys the company of others. They light up a room and make a gathering come to life. Leos are also confident in their abilities to get things done, good at motivating others, goal-oriented, creative and inspiring. However, the fiery Leo is not without his or her flaws. Leos are prone to outbursts of temper, want to have their own way, are impulsive and pessimistic. The other fire signs in the zodiac are... Just as the Lion is a ruler, the Sun is the lord over the solar system. It is fitting that the Sun is the Leo's ruling planet. Being ruled by the Sun, means the Leo loves to be the center of attention and the center of everyone's world. The Leo zodiac has a huge self-image, a fiery nature, has drive and an abundant personality. Even though all Fire signs are going to be similar, there's a lot of differences between them. This is because of the quadruplicities, or the qualities of those signs. Just like there are 4 elements — Fire, Earth, Air, and Water — there are 3 quadruplicities. These are Cardinal, Mutable, and Fixed. The Leo is of the Fixed quadruplicity. This means Leo is: Resistant to change You like to stay in the background Not particularly thrilled about new ideas Tenacious and/or stubborn You want others to agree with you Bring responsibility to teamwork and keep everyone under control You want things done your way Not a risk-taker Take responsibility very seriously Being ruled by the Sun means that a Leo loves to be the center of attention and the center of everyone's world. When a Leo don't get that from your nearest and dearest, you can get a little pouty. But the pouty days are few and far between because you love to be where the action is and with the people that are creating it. As a result, a Leo works hard to pay for their luxurious tastes so that they can be generous with all of those you include in your circle, which is probably a large one. The Leo has many friends, and all of them are dear ones at that. As the Fixed Fire sign, yours is a sparkling personality that embodies the Lion, the King of the Jungle. It's going to take a lot to get you down, and even more to keep you there! Leos are typically wonderful entertainers; no expense or effort is spared in making sure others have a good time. Leos often attract the attention of others (wanted or otherwise). The reason some of this attention may be unwanted is that Leos are rarely available; they take early and well to solid and committed relationships. It's important to have passion in your life, and when you don't, well, it feels to you almost like having an operation without anesthesia. Top Leo Traits Bighearted, passionate, romantic Very outgoing, extroverted, gregarious Stylish Protective Love to give advice and counsel to others. Crave compliments, attention, and flattery Generous and forgive easily Sympathetic Work well under pressure High morals Creative You're warm and forgiving and can have genuine sympathy for most of the world's pain and problems. It's easy for you to forgive after a rift between friends or lovers. You're passionate about whatever you do, and you tend to need a partner in your life to get the emotional support and adoration that you need. You need to matter to someone; you need them to lean on you. Just remember to accept help as often as you give it. Top Leo Challenges Of course, the good does come with some challenges that balance your personality and give you things to work on during this lifetime. Specifically, Leos: Can be very lazy. Hate to be bored Pridelful, arrogant, conceited Possessive Vulnerable and easily upset Opinionated and stubborn You need people to need you Extravagant and may be careless with money Leo During Conflict They need attention to feel important to you. Leos crave validation at all levels which they work hard to be in the spotlight. To overcome conflict let the Leo know they are understood and acknowledged.
