One of the most popular ROBLOX games was "Hacker Escape", which was one of the most visited blogs on ROBLOX prior to 2011. It was a game where the hacker got into an abandoned house, and used numerous exploits to obtain admin privileges, allowing him/her to modify certain aspects of the game. This blog caused heavy controversy in 2011 because it allowed hackers to manipulate and change the settings on their games without consent from ROBLOX. However, after the release of version 1.0, this blog became outdated because developers started using hacks in their games that had not been discovered yet. In May 2012, ROBLOX launched a new blog system to replace the previous one, this paid-for feature was created by Epic Events Inc.
