In January 2017, Roblox permanently banned all accounts that were created by Arielle De La Rosa. The company said it was because of her "continued behavior", which included actions such as creating Emily Roe and harassing other users, as mentioned above. Although she had been blocked from Roblox for over a year, they said their original ban for her had been lifted in November 2016. They also stated that she could no longer be unblocked on their platform because of previous harassment reports against other players. The ban was not for her actions, but instead because of the continued harassment she had done.

The more popular games have prices ranging from \$10-\$25 and some people think that it is way too expensive to pay for a game, especially if it doesn't require any physical hardware or extra equipment. Some also specify that when they see a custom hat being sold for \$25 and think it's ridiculous because hats aren't even digital assets and are an accessory.

Weebly Pages later went on to become Pikazo. ROBLOX is the first game that has allowed players to have voice chat. [121] ROBLOX is the first online game that allowed players to invite others into their world and even allow them to build things like they used to in PC games. [122] The next games that would allow users to invite others into their worlds were Habbo Hotel where they had their FriendBook and later on also added a FriendChat system in December of 2011, Club Penguin where you could invite fellow penguins into your world, and Mario8 since 2014. Rated 4 out of 5 by Anonymous from Pretty Fun This game is fun and very addicting but would probably be more fun if you had a personal computer or notebook. And sometimes there are annoying adds but overall its a great game if you want to have some fun with your friends online.

Rated 5 out of 5 by Anonymous from I love this game! This game is so fun and addicting! You can create your own avatar or characters and make them the way you want to. Then you can go on adventures with your friends all over various places, such as the woods, Medieval times, Downtown, or even outer space. You can do this in a bunch of different games. Not only is there adventure games, but you can play games like a shooter game, or even just a regular sandbox game where anything goes. My friends and I have been playing this game for years and we love it so much. It's great for kids to play because some of the games are educational and some are not. There are a lot of things to do on this game, and it's worth the money!
