ROBLOX, from a mobile phone screenshot taken on 1 September 2013 Game Similarities and differences Grand Theft Auto Online This is another game similar with Roblox. It allows players to participate in various activities including robbing banks and carrying out heists, which is very similar to Roblox's Criminal series. [134] Cube World A game with many similarities with Roblox since it has blocky worlds that players can explore using their characters in which you can also build structures. [135] Elements This game is made to look a lot like Roblox. The main point of it is to destroy buildings to earn money and level up. [136] Bible Adventures This game looks just like Roblox, but with a few minor differences. [137]

Roblox can be a great way to find new friends because it has a lot of free robux codes which you can use for free games. This site really keeps you engaged since there are so many different things that you will want to explore in the virtual world. You will never get bored here because there are so many different games available here for you to play. There are many free robux codes which you will need in order to play these games since they are not actually free if you do not have them inside your account already.

Roblox is used for many educational purposes. For example, students can use it to practice basic coding skills such as the keyboard, the number keys, and how to move the characters on the screen. Teachers have also found it useful for teaching basic physics such as gravity and force. It's also used in STEM (Science, Technology, Engineering and Math) classes at elementary schools in which students have access to do robotics projects.

In early October 2008, ROBLOX launched a blog that discusses game design techniques, new features and events in detail. This blog is updated regularly with posts from the ROBLOX development team as well as occasional guest posts from other entities such as users and other game developers.[41] In late November 2010, ROBLOX launched a forum with Frequently Asked Questions (FAQs) regarding common problems that users face when using ROBLOX Studio.[42]

What I would love to see is more updates for games like minecraft, and many more updates. Also to add new games such as an RPG game (something similar to LOTRO) maybe something similar to wow where you come out of the game and control different characters. If we all work together we can get Roblox updated with these new games instead of waiting till now where there are a lot of glitches.
