Continue

Unarguably one of the most well-known superheroes ever, Spider-Man has been swinging into the hearts and minds of kids and adults since its debut in *Amazing Fantasy # 15* in 1962. Since then, we've seen countless iterations of the web-slinger that includes animated shows and even live-action movies. As proven over time, Spider-Man still has the power to draw crowds with its live-action movies, whether it's the original trilogy with Tobey Maguire or even the reboot starring Andrew Garfield. But of course, its most successful iteration must be Tom Holland's version as part of the Marvel Cinematic Universe. With *Spider-Man: No Way Home* opening in cinemas this week, we look at some of the best moments from past movies, in a true celebration of our web-swinging hero.

**Aunt May's Speech (Spider-Man 2, 2004)** (Image credit: Sony) In this sequel that is considered to be among the best Spider-Man movies, Aunt May gives a heartfelt speech at the true meaning of a hero, citing that everyone has the heart to be one. This emotional line is what pushes Peter to return as Spider-Man after realizing that his true destiny is to become one. (Image credit: Sony) One of the most iconic scenes not just in the series but in the history of film, Mary Jane offers her thank you as a form of a kiss to Spider-Man after being saved from muggers. The scene delivers a sweet yet poignant feel to the web-slinger, who knows that he must keep his identity a secret to protect the one person he truly loves. (Image credit: Sony) After falling to stop the Vulture, Peter cries helplessly while being trapped in the rubble. Despite his desperate pleas for help that go unanswered, he manages to gather his strength and escape the debris where he finally realizes that being a hero doesn't just mean having a fancy Tony Stark-designed costume.

**Introducing Spider-Man (Captain America: Civil War, 2016)** (Image credit: Sony) Already teased during the trailer, one of the best moments of the film is Iron Man calling out "Underoos" which turns out to be a new member of his team. Peter Parker joins his team as Spider-Man after being recruited through a "Stark Internship Program".

**Peter Tingle (Spider-Man: Far From Home, 2019)** (Image credit: Sony) Close to stopping Mysterio and his army of drones, Peter completely relies on his "Spider-Sense" (hilariously referred to as Peter Tingle) to destroy all the drones and defeat Mysterio. But as we've witnessed in the conclusion, his defeat is just the start of Spider-Man's other problems.

**Peter Saves Mary Jane (Spider-Man, 2002)** (Image credit: Marvel) In a scene that made everyone teary-eyed, Peter is one of the millions that have been "blipped" by Thanos' snap. While Tony is shocked that their mission has failed, he realizes that Peter is one of those who will vanish and the emotional scene where he says sorry just makes things even more depressing.

**Spider-Man vs. Doctor Octopus (Spider-Man 2, 2004)** (Image credit: Sony) Probably the best action scene in all of the live-action movies, Spider-Man finally embraces his destiny as a hero as he fights Doctor Octopus on top of the Manhattan skyline. Things take a turn for the worse when Spider-Man has to stop an accelerating train and save all the people inside before it is too late.

**Gwen Dies (The Amazing Spider-Man 2, 2014)** (Image credit: Sony) In another emotional moment for the web-slinger, Peter's girlfriend Gwen Stacy is kidnapped by the Green Goblin which turns out to be his friend Harry Osborn. Fighting on top of a clock tower, Peter manages to stop Harry but fails to save Gwen on time as she falls. The scene ends with a broken-hearted Peter saying goodbye to the woman he loves.

**The Leap of Faith (Spider-Man: Into the Spider-Verse, 2018)** (Image credit: Sony) In this animated film that features Miles Morales, he finally takes a leap of faith in being a superhero. Filled with doubts about his abilities, his fellow spider-variants convince him into making the world a better place with him as Spider-Man, making him jump on top of a building and embrace his true potential.

**Real Name: Peter Parker Location: New York City First Appearance: *Amazing Fantasy #15* (1962) Created By: Stan Lee and Steve Ditko Publisher: Marvel Comics Team Affiliations: New Avengers Spider-Man has spider-like abilities including superhuman strength and the ability to cling to most surfaces. He is also extremely agile and has amazing reflexes. Spider-Man also has a "spider sense," that warns him of impending danger. Spider-Man has supplemented his powers with technology. Being a brilliant chemist and scientist, Peter has made web-slingers, bracelets that shoot out a sticky webbing, allowing him to swing from building to building and ensnare opponents. He has also developed stingers that shoot powerful energy blasts that can stun foes. In the recent storyline, Spider-Man has been reborn with even stronger abilities. He has the ability to see in the dark, enhanced senses, and can feel the vibrations through his webbing. In addition to this, the new, "Iron Spidey," suit has enhanced his strength further and gives protection from damage. Recently, however, he has gotten rid of the suit and returned to the classic costume. The publishers didn't want to do a character named Spider-Man at first, they thought it was too scary.**

**Green Goblin/Venom/Sandman/Hobgoblin/Vulture/Doctor Octopus/Lizard/Kraven/Chameleon/Mysterio/Rhino/Carnage** Peter Parker was an orphaned teenage boy who lived in Queens, New York with his Aunt May and Uncle Ben. He was a shy boy, but highly intelligent and excelled in science. He was often teased by other more popular kids like longtime nemesis Flash Thompson, but his life was soon to change on a visit to the science museum. At the science museum, Peter was bitten by a radioactive spider. The spider bite gave Peter spider-like powers with super strength and reflexes. He also had a "spider-sense" alerting him to danger. Armed with these new powers, Peter first sought fame and money before fighting crime. He worked with a wrestling circuit and got some fame and appeared on a television show. During a robbery of the television show, Peter has the chance to stop the thief but chose not to. Peter later finds out that the same robber that he could have stopped at the television studio attempted to rob his aunt and uncle's residence, and his Uncle Ben was killed in the struggle. The words of his late uncle, "with great power there must also come great responsibility," drive Peter to fight crime instead of chasing fame. Spider-Man was truly born. One of the greatest turning points in Peter's life was his relationship with Gwen Stacy. During his younger years, Gwen was the love of Peter's life. The blond bombshell was a perfect fit for Peter. This relationship had a sad end when during a battle with Norman Osborn, the Green Goblin, Gwen is killed. Peter did everything he could to save her. This event has always haunted Peter and made it difficult for him to trust others with his identity, fearing that they would become targets of his enemies. Peter eventually dealt with his grief over Gwen and began a relationship with Mary Jane Watson, a high school friend and now model and actress. Their relationship was rocky, with Peter ever fearful that he would put Mary Jane in harm's way. Mary Jane finally told Peter that she has known for some time that Peter was Spider-Man, something that helped cement their new relationship. In the mini-series, *Secret Wars*, many of the Earth's heroes and villains are transported to a planet by the omnipotent being, "The Beyonder." During his time there, Peter gets a new black costume that can alter its shape by the power of thought and has an unlimited supply of webbing. Peter takes the costume back to Earth and continues to fight crime in his new suit. The suit turns out to be an alien symbiote and tries to merge completely with Peter. With the help of the Fantastic Four, Peter manages to free himself of the black costume and goes back to wearing his typical red and blue suit. The alien symbiote, however, bonds with fellow journalist and rival Eddie Brock, turning him into the villain Venom. The two have since become major enemies and continue to fight each other. Peter has since learned that his powers are linked to the totem-like power of the Native Americans. In a ferocious battle with a being called Morlun, Peter died, only to be reborn again with stronger spider-like abilities. It was also during this battle that his Aunt May discovered that Peter was Spider-Man and is now one of his more vocal supporters. Lately, Peter has come under the wing of Tony Stark, aka Iron Man. Tony Stark has given him a new costume that further enhances his strength and abilities, such as protecting him from bullets. As part of Tony's initiative to reign in superheroes with the Superhuman Registration Act, Peter served as the ultimate poster child, announcing his secret identity to the world. An act that may have serious consequences for the superhero in the future. It took Peter some time, but he soon came to the realization that he was on the wrong side and defected to join Captain America's rogue band of heroes. When the war ended and Iron Man won, Peter went underground and donned his black costume again. He is now on the run from the authorities. You're in the middle of a test when the fire alarm goes off and the class starts to panic. How do you handle it? Go outside with the class and wait. Investigate the culprit as Peter Parker. Leap into action and put out the fire. It's your first date with Gwen Stacy, and your nerves are at an all-time high. Suddenly, the ice cream parlor you're in gets robbed. What do you do? Sneak to the "bathroom" to address the criminal. Save the day as Peter Parker. Could you put a pause on being a hero if you were going through a difficult time in your life? I could stop for a while. I would stop long enough to regroup. It would be hard to stop. Stopping would be almost impossible. You're headed to school when your spidey-sense starts tingling. A bus is about to run into a baby stroller. How do you handle it? Use your web to stop the bus. Remove the baby from the stroller. Get between the bus and the stroller.
