Giving players the ability to repair advanced weapons instead of having to remake them is an excellent choice. There's room for improvement though. The player needs a reference for all available actions. Immersion requires the player to figure out the world, not the interface. For example: trying to figure out how to pee for the first time is quite ridiculous since the game doesn't tell you how. I would also like the option to post exploits to the devs. ???? of A Google user: It's a great survival game. Probably one of the better ones. I love how you get a dog off the bat., you can repair weapons and armor, crafting is tough but do able, traveling to locations isn't a ridiculous amount of time so you can set the phone down and come back a few.minutes later and play more which makes it so much more enjoyable. One of the few things I do dislike about the game though is the 2 skull zones boss is ridiculous. Also the Facebook log in does not work. Conclusion We trust that you'll like Z Shelter Survival MOD APK thorough article about this game and furthermore, you'll appreciate playing the game from APKSAVERS. Thank You!
