Related the answer is 42 the 42nd one sucks Solution[] Click the 42nd 42, as it is really what the task wants you to do. Although the hint says "HINT: ITS 42", what it means is HINT: ITS 42nd. Explanation[] Adam's "The Hitchhikers Guide to the Galaxy" book shows that roughly after 7M+ years, the answer to the life, universe and everything is simply, 42. And the 42 number for places in some competitions are 42nd, or sometimes 42th. And 42 is the answer aforementioned. So, the result comes to 42nd. Do note after answering the previous question, your cursor would be above the 1st 42. Luckily, since it goes rows by 10, and the 40th 42 at the last 42 at the up to down would be the last of the 4th row. So, the 42nd 42 would be the 2nd forty-two at the bottom row. It is highly recommended you remember this, as it will be mentioned again in TIQB's chapter 3 Question 142, which in 3 42s are missing. Unlike THIS question, though, the 42 of the hint counts for the order. It says "What is the answer to life, the universe, and everything?". Below is a wall of 50 copies of the number 42, and in between there's a hint within parentheses, saying "It's 42". This question is also the third unskippable of the game. The correct answer is the 42nd 42. It's the second 42 in the bottom row. Click it to proceed. This question is in reference to Douglas Adams' book "The Hitchhiker's Guide To The Galaxy". A group of hyper-intelligent pan-dimensional beings demand to learn the Answer to the Ultimate Question of Life, The Universe, and Everything from the supercomputer, Deep Thought, specifically built for this purpose. It takes Deep Thought 7½ million years to compute and check the answer, which turns out to be 42. Deep Thought points out that the answer seems meaningless because the beings who instructed it never actually knew what the Question was. Trivia Adams' "The Hitchhiker's Guide to the Galaxy" is also the book after which Chapter 2 of The Impossible Quiz Book ("The Phlovomilte's Guide to the Galaxy") got its name. A similar question appears as Question 142 of TIQB Chapter 3, with the difference that it is a Bomb question, since there's lava incinerating the lower part of the screen thanks to Chris's and Norman's time-travelling madness. It's also different in that the 42's are placed differently, and the 42nd 42 is two spaces to the right from where it was in the original question. This is the only Question 42 of the series that doesn't reference any of Gingerneck's Flash projects. In Question 59 of The Impossible Quiz 2 one of the option boxes says "Click the 42nd 42". In The Impossible Quiz 2, one of the tips of the day in the loading screen says "Click the 42nd 42".
